

User Story:
As an adventurer, I want to discover a new world I can visit so that I can enrich my lifetime experiences.

Nav
Logo - a custom AKRAGAS png - evoking Greek/Ancient typography
Single scroll site so Menu links to anchors

Home
Hero image, slight push in on load to emphasis the grandeur / aerial view
Quote panel slides-in on load
Possibly a carousel of 2-3 hero images?

About
BG Image 40BCE drawing of city at 80% transparency (may use dark maroon panel instead)
Video embed of 3d recreation of Akrágas
About text (history)
Description of history of Akrágas - possible a small map of Sicily with dot showing location.
Timeline to present day (founding, fall to Cathaginians, renaming of city and archaeology). Have plot points appear sequentially upon load

The Temples
Description of the uses/culture
List/describe the 7 known to exist
https://www.ancient.eu/agrigento/
Possibly display image with a slider to show ancient recreation contrasted to present day

Gallery
Lightbox with Captions?
Possibly include another video

Visit
Ticketing Info / link to official site website
Google Map showing overhead view of the Valley of the Temples

Contact
Text expressing that any questions can be answered, including advice on visiting the area.
Social Icons
Contact form

Footer
Links to Sicily Tourism
Menu
Possible mention it's rank and or Unesco status

Colour scheme
Shades of red/yellow to echo Sicilian identity, but using dusk-ier tones
Light Blue accent for contrast

Mobile View
hide timeline - or change layout to vertical?
